EG&G
ROCKY FLATS PLANT
CORRESPONDENCE CONTROL

Status of Environmental Permits and Compliance Agreements at the Rocky Flats Plant

H. P. Mann
General Manager
EG&G Rocky Flats, Inc.

The U. S. Department of Energy (DOE) Rocky Flats Office (RFO) is requesting that EG&G provide an inventory and status update through April 30, 1993, of all state and federal environmental permits and compliance activities that impact Environmental Monitoring, Environmental Restoration, and Waste Management Programs at the Rocky Flats Plant.

Attached for reference is an inventory provided by RFO to DOE Headquarters in December 1991. Please provide an update of all major activities and the current status of each environmental permit and compliance activity to RFO by July 9, 1993.

For future status updates, RFO is requesting that EG&G provide an Appendix to the Environmental Compliance Monthly Reports which lists all activities of significance for each area of regulation for the past year, with the most recent activities listed first. Each month, any new developments or activities would be added to the top of the list for each area, and any activities which occurred over 12 months ago would then be deleted. The Resource Conservation and Recovery Act (RCRA) History Update developed by RCRA Regulatory Programs is included as Attachment 2 for reference.

A. H. Pauole
Acting Manager
